Spring Price List Of 1950

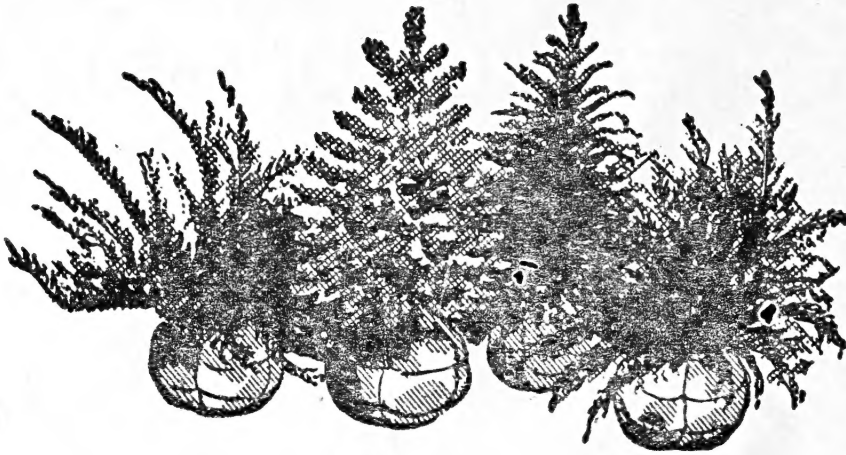

**Peters
Evergreen
Nursery**

Sherburn, Minn.

(1)

Specimen Evergreens

These trees have all been transplanted from two to five times. Dug with earth ball on roots, wrapped in burlap and tied double with 2 ply sisal twine, at no extra cost.

COLORADO BLUE SPRUCE (Green Color)	Each
15-18 inch	\$1.50
1½-2 feet	\$2.00

COLORADO BLUE SPRUCE, "Shiners" (Silver Blue Color)—
These blue shiners are the very best obtainable in the seed trees. We price them according to form and height. About \$2.25 per foot of height.

THUJA OCCIDENTALIS PYRAMDALIS—We have a few Pyramidal Arborvitae well grown good bushy trees. Matched pairs at \$9.00 or single trees at \$5.00 each. They run about 3½ to 4 feet tall.

BLACK HILLS SPRUCE—The Black Hills Spruce is a great favorite here, making a much better tree than the Norway. The tree maintains a compact symmetrical growth even in small trees. The foliage is a fresh attractive green, often running to blue. It is thrifty and fast growing. A good tree wherever planted.

15-18 inch	\$1.50
18-24 inch	2.00
24-30 inch	3.00
2½-3 feet	3.50

MUGHO PINE—A dwarf growing pine used for ornamental planting.

24-30 inch	(Each) \$3.75
------------------	---------------

Junipers

Junipers are comparatively new in the nursery trade. The various forms grow in almost any shape and color. Very hardy and will stand a great deal of dry weather. Most desirable for landscape work.

JUNIPERUS VIRGINIANA PYRAMIDIFORMIS HILLI—The Hill Dundee Juniper is the best of the upright compact green forms. It is a sport of the *Juniperus Virginiana* and does not discolor nearly as bad in winter.

3-4 ft. grafts, staked (Each) \$6.00
2-3 ft. grafts, staked (Each) 5.00

JUNIPERUS SABINA—The well known Sabin Juniper is perhaps the most used of the half-erect groups. Grown from cuttings it is easily transplanted.

18-24 inch (Each) \$3.00

JUNIPERUS CHINENSIS PFITZERIANA—The handsomest of the Chinese Juniper varieties is the Pfitzer. Will thrive almost anywhere.

24-inch spread, staked (Each) \$3.75
18-inch spread, staked (Each) 2.75

JUNIPERUS VIRGINIANA—The Platt River strain of Red Cedar. Our hardiest native evergreen. Can be sheared and grown as a fine specimen tree. Good straight 3 year old trees.

15-18 inch (Each) \$1.00

Balsm Fir

BALSM FIR—A native Minnesota Evergreen which will do well in partial shade. Grows into a dense pyramidal shape tree. Dark green color. Choice trees.

2-3 feet (Each) \$2.50

Windbreak Materials

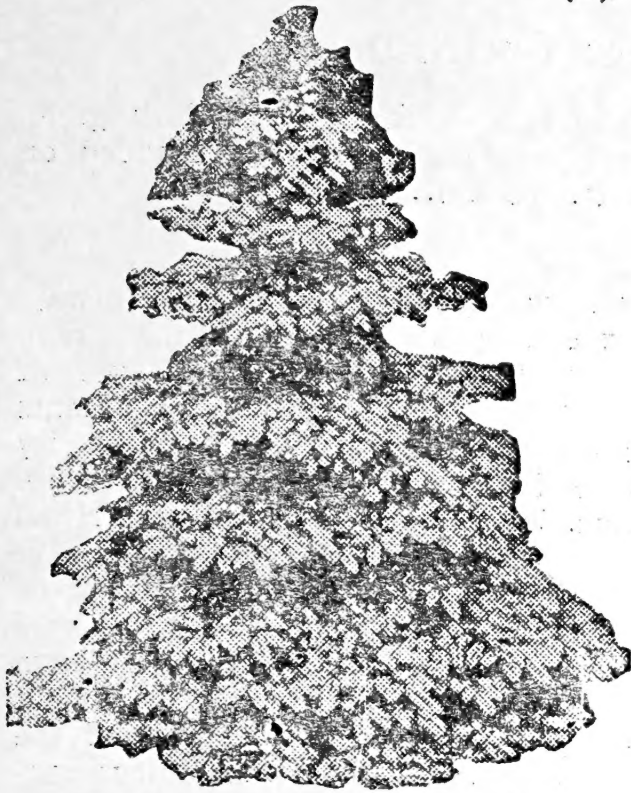

LAUREL LEAF WILLOW—Laurel Leaf Willow is the best of the Willows for windbreak work. This quick growing variety has heavy, glossy, dark green foliage. Because its branches are so dense right from the ground up it is an ideal variety for the two outside rows of windbreak as a snow catch. Laurel Leaf holds its foliage late in the fall, thus giving added protection. 2-3 ft., well rooted, \$6.50 per 100.

RUSSIAN GOLDEN WILLOW—This fast growing Willow has attractive bright yellow bark. It is especially fine when planted in masses and is very colorful in winter. Hardy anywhere. 2-3 ft., well rooted, \$6.00 per 100.

AMERICAN ELM—Selected upland strain. Recommended by the Conservation Department for shelterbelts and woodlots. Very hardy, long lived, beautiful. Will grow on almost any soil. Drought resistant. 2-3 ft., \$4.50 per 100; 18-24 inches, \$3.00 per 100.

GREEN ASH—Most dependable of all trees for the windbreak or woodlot. Quick growing, long lived and excellent for lumber or fence posts. Will grow on almost any soil. Our strain of Ash is a hardy Dakota strain that has proven to be drought resistant, dense, and durable. Include Green Ash in your windbreak planting list. 2-3 ft., \$4.50 per 100.

HONEYSUCKLE BELLA ALBIDA—We have grown and used this shrub for windbreak since 1934. Very hardy and long lasting. The original plant that we started propagating from, growing near here, is over 50 years old and still in fine healthy condition. Planted 4 feet apart in the row, it will make a real "live" snow fence. It should be planted on the very outside, on the north and west of the grove. Strong one year old plants, 2-3 ft. branched, \$20.00 per 100; 18-24 inches, branched \$17.50 per 100.

Evergreens

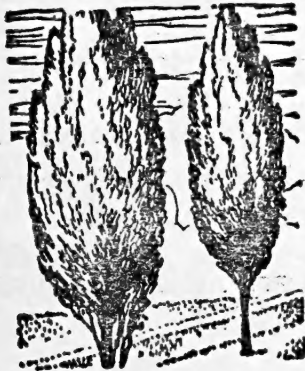

For

Wind- break

RED CEDAR—We have nice blocks of 3 year old transplanted trees. 100 for \$40.00.

BLACK HILLS SPRUCE—5 year old transplants. Ready for the windbreak rows. Bed run, from 4 to 9 inches. 100 for \$25.00.

COLO BLUE SPRUCE—7 year old twice transplanted green ones. Very good for windbreaks. About 10 inches tall. 65c each.

Shade And

Ornamental

Trees

HOPA—From an ornamental standpoint, Hopa is without doubt the most beautiful Flowering Crab that can be grown in the North. It is absolutely hardy, thriving even up in Canada. It develops into a beautiful, graceful, medium-sized tree that is strikingly ornamental wherever it may be placed. The buds are blood-red and the tree, when in bloom, is covered with large, single, deep rose-colored blossoms which continue long on the tree, to be followed by quantities of small reddish fruit which makes excellent jelly. Prices: choice 6-7 ft. well branched \$2.00 each; choice 5-6 ft. well branched \$1.50 each.

Shade Trees Continued

LAKE CITY ELM—A sport of American Elm. Large dark green leaves, vase shape habit of growth, fast growing. Budded on American Elm roots. 10-12 ft. trees. Each \$3.50.

MAPLE, Schwedler—Similar in growth and habit to the Norway. Maple, the Schwedler Maple carries a distinctive bronze-green foliage during the summer and purplish crimson leaves of the new growth in the spring. They are best used for accents on the lawn or as street specimens. It is well adapted to city conditions and for this reason has become a popular favorite. It has a round head formed by spreading branches. Prices: 7-8 ft. \$2.75 each.

ELM, American—The American White Elm is one of the best lawn trees adapted to the United States. Grass can be grown right up to the trunk under the high, vase-shaped tree. One of the most universally used trees in America. Does well almost anywhere. Exceedingly good for boulevard planting or as a shade tree, where permanence is wanted. Prices: well branched trees 10-12 ft. tall, \$2.50 each.

LOMBARDY POPLAR—Well liked wherever grown. One of the most picturesque as well as most useful trees to be found. It is effectively planted as accent in gardens, foundation plantings, and shrub borders, as a hedge, or along drives or boundaries. Its branches grow close together and upright from the straight trunk to form a tall, slim column, tapering slightly to a pointed top. Rapid growing and hardy. Prices: Select evenly branched 10 f., \$2.00 each; Select evenly branched 6-8 ft., \$1.25 each; Select evenly branched 5-6 ft., 85c each.

PUSSY WILLOW—The large Fench Pussy Willow, makes a very attractive small tree. 2-3 ft., 1 yr. old. 50c each.

CUT LEAF WEEPING BIRCH—A graceful white barked tree with drooping limbs and cutleaf foliage. Highly recommended for lawns and park planting. Well branched 7-8 ft. trees, \$3.75 each.

PYRAMIDAL LINDEN—Has all the features of the basswood, large leaves, white blossoms and real pyramidal habit of growth. Good, well branched 5-6 ft. trees, \$3.50 each.

Raspberry Plants

LATHAM—(Minn. No. 4) That great Minnesota Introduction—holds first place as a leading commercial and home variety of Red Raspberry. It is hardy everywhere, bushes are sturdy, upright, and vigorous, particularly resistant to disease of all kinds. The fruit is very large, dark red and firm. Latham is an excellent shipper, heavy yielder, easy picker. It has the qualities that make it the leading Red Raspberry. Heavy plants. Dozen for \$1.50; 100 for \$10.00.

INDIAN SUMMER, EVERBEARING—A raspberry that produces a crop towards the end of June and another in late September, here. The berries are large, conical, medium red, rather soft and of good quality. Indian Summer is the best everbearing red raspberry that we know of. Very disease resistant. Dozen for \$1.60; 100 for \$11.00.

Asparagus Roots

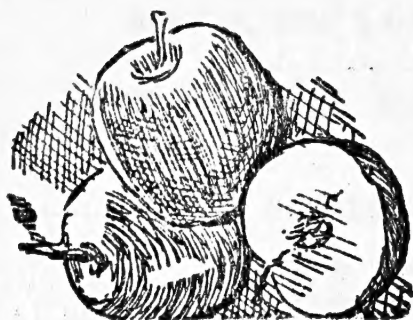

In preparing the bed for asparagus roots, the soil should be worked up at least 12 inches deep and a very heavy application of well-rotted manure or commercial fertilizer should be given. Make furrows ten inches deep and spread roots 18 inches apart in row and cover with two inches of soil, gradually filling as shoots appear until surface is level. Do not cut any later than June 20th until the third or fourth year.

MARY WASHINGTON—1 yr. old, 25 for \$1.65; 100 for \$3.75.

Rhubarb

EARLY SUNRISE—Stems are dark red all the way through. Fine for pie and makes beautiful sauce. Large strong divisions. 75c each.

VALENTINE—Another one of the new Canadian Rhubarbs. Perhaps the largest, most vigorous growing of all red varieties. Excellent for freezing. No. 1 Divisions, 75c each.

Apple Trees

—:—: EVERY GARDEN SHOULD GROW SOME FRUIT —:—:

ORIOLE—The new apple that was named in Dec. 1948. We have grown this apple for about ten years as Minnesota No. 714 from the Minnesota Fruit Breeding Farm. It is an early summer apple of very high quality and is destined to become a leader among summer apples. Every planting should have at least one of these top quality apples.

BEACON—Another summer apple that has established itself throughout Minnesota and surrounding territory. Developed by Minnesota Fruit Breeding Farm and named only a few years ago. Ripens just a few days later than Duchess, all-red color and good keeping qualities.

PRAIRIE SPY—It is medium to large apple, ripening late and an exceptionally good keeper. Fruit covered with carmine red stripes and is very attractive. Quality good.

MINJON—An apple closely resembling Jonathan in size, color and form. It is very hardy, very productive and ripens soon after Wealthy. Good eating and cooking quality.

WEALTHY—An apple that has stood up well through the years. Well known fall apple.

YELLOW TRANSPARENT—Another old favorite early apple. The yellow-green fruit is fine for eating fresh from the tree.

HARALSON—Perhaps the most popular winter apple grown in Minnesota. Red fruit of medium size. Excellent for cooking.

FIRESIDE—One of the highest quality varieties ever developed at the Minnesota Fruit Breeding Farm. The rich, almost sweet flavor, with flesh crisp, firm and juicy makes it an outstanding winter apple.

WHITNEY CRAB—An old favorite for eating and pickling.

DOLGO CRAB—The most popular jelly Crab. Extremely hardy.

PRICES OF ALL APPLE TREES

3-4 ft. each,	.75;	10 for	6.50
4-5 ft. each,	1.00;	10 for	8.50
5-7 ft. each,	\$1.40;	10 for	\$12.50

Plum Trees

MT. ROYAL—European Blue Plum. It is recommended for this section of the country. The trees bear heavily, the fruits are medium in size, purplish black, flesh firm, freestone, quality excellent for all purposes.

REDCOAT PLUM—A new, red, free-stone, early ripening, very productive, hardy plum, developed by the Minnesota Fruit Breeding Farm. One of the best for canning.

MONITOR—Late mid-season. It produces a large beautifully formed tree of upright spreading growth, is very vigorous and hardy. Fruit large red, firm fleshed and of excellent quality.

SAPA—The cherry-plum hybrid. Extremely hardy and easy to grow. It is a large sized hybrid cherry, purple-red outside and wine-red inside, thin skinned and has a delicious flavor.

SUPERIOR—A very large red plum of good flavor. The tree grows large and bears heavy. One of the finest plates of Plum ever shown at our County Fair was Superior.

UNDERWOOD—One of the older varieties, and still one of the best. A good red plum that should be included in every planting.

PRICES OF ALL PLUMS

5-6 ft. each,	\$1.75;	10 for	\$15.00
4-5 ft. each,	1.25;	10 for	10.00
3-4 ft. each,	1.00;	10 for	8.00

Famous Strawberries

ARROWHEAD—(Formerly Minn. No. 1118). A bright red, attractive June fruiting strawberry which has been high vigorous and productive in tests at many and varied locations. It is a promising home and market variety. 25 for \$1.50; 50 for \$2.50; 100 for \$4.00.

BEAVER—While not as high in flavor as Dunlap or Premier, Beaver is a firm berry and especially good for canning. Does best on sandy soils. Beaver berries have good color, yield early and heavy and are a good shipper. 100 for \$2.50.

DUNLAP—Mid-season. An old favorite. One of the best known and most widely grown strawberries in the north and eastern half of the United States. 100 for \$2.00; 500 for \$8.00.

EVERBEARING

EVERMORE—(Minn. No. 1166). This new everbearer is in much demand due to its hardiness and good plant forming qualities, as well as being a heavy producer. Fruit is medium to dark red and inclined to be tart. 100 for \$4.00.

STREAMLINER—The New Everbearing Strawberry is especially hardy and combines the virtues to make this an outstanding variety. Bears large sized fruit of excellent flavor. The healthy foliage and freedom from disease makes Streamliner outstanding. 100 for \$4.00.

Hardy Grapes

FREDONIA—The Fredonia is an early black Grape of the Concord type. However, it is three weeks earlier to ripen than Concord, which is a decided advantage in the northern part of the country. The fruit is equal to, or better than Concord. It is very productive and is just as hardy as Concord, but like Concord should have winter protection. Fredonia is rapidly becoming a standard variety and is replacing Concord in many districts. 2 yr. old choice plants. 3 for \$1.00, or 35c each.

MOORE'S EARLY—This grape is an older variety, but is being successfully grown in this area. Berries are large, jet black compact bunches. 2 yr. old choice plants, 3 for \$1.00 or 35c each.

Brownell Everblooming Rose Bushes

A new race from hardier species that can bloom all summer, with best of fragrant flowers, more free and constantly, of greater sturdiness and vigor, to live many times as long even after sub-zero winters.

SUB-ZERO HYBRED TEAS

CURLY PINK—Matchless in the combination of size and form of bloom, beauty of cluster, constancy, vigor and foliage, hardiness and performance. When established, many large, two-toned pink blossoms, in several stages form a gorgeous bouquet on a single stem.

LILY PONS—White with pure yellow center, large graceful flowers of indescribable delicacy; vigorous, free bloomer. Often a feature of gardens in the cold Northwest.

DICK WILCOX—A magnificent deep red Rose that can grow two feet or more in height in one growing season, upwards of a hundreds of the largest very double blooms, year upon year, even following the coldest of sub-zero winters. Named after the well known rosarian formerly of Minnesota University, who discovered Brownell Roses would winter in the cold Northwest.

QUEEN O' THE LAKES—Named for the Queen of Minnesota's Aquatic Sports. No Diving Beauty could show greater fullness of grace, brilliance and elegance of form, or color more beautiful than this charming crimson queen of flowers.

V FOR VICTORY—Most beautiful, large, very double, yellow, fragrant Roses; constantly blooming. To numberless experts, there is no such long lasting loveliness in Rosa.

RED DUCHESS—A very outstanding rose in every respect. Such captivating fragrance. Such a shade of rose-red. Such colorful, persistent foliage. Such a robust and sturdy sub-zero plant. While nearly all Brownell Roses are pleasingly fragrant, the magic of sunshine on these petals issues a new fragrance incomparably alluring in spicy sweetness and charm. One whiff is an experience to be remembered.

Brownell Roses Continued

BREAK O' DAY—Orange to apricot, large, very double flowers, very vigorous, free bloomer, delightfully inspiring.

SHADES OF AUTUMN—An abundant and joyous expression of bi-colored beauty. Many have reported that this beautiful red, yellow and blush flower is gorgeously outstanding.

CEDRIC ADAMS—The eminent radio commentator, lover of people and Roses, has placed his name on this most magnificent Rose. Out of thousands of candidates, Cedric Adams chose this sturdy, large and double scarlet to carmine Aristocrat of Rosedom to carry a beautiful Rose with his name to the rest of the Rose growers of the country.

PRICES: All Brownell Roses: \$1.75 each; 3 for \$5.00; \$18.00 per dozen.

Patented Hybrid Tea Roses

PEACE—(Pat. No. 591). 1947 All-America Selection and one of the few roses that can justify the term "sensational." Large, golden buds, daintily edged with vivid rose, open slowly to magnificently large blooms. The shades of color vary but are always fresh and beautiful even in the fully opened flower, which lasts for days. The plant is as remarkable as the bloom, with strong, straight stems and hollylike foliage. \$2.00 each.

CRIMSON GLORY—(Pat. No. 105). Experts agree it is the best red rose grown. Its vivid crimson shaded flowers are mellowed by a soft velvet nap. Each \$1.50.

MIRANDY—(Pat. No. 632). A winner in the All-America Rose Selections for 1945, of compelling interest in its tall, very vigorous plant habit. Long ovoid buds, rich red, which you will want to cut for unusual brilliance in bouquets. \$1.75 each.

ROSE OF FREEDOM—(Pat. No. 791). Winner City of Portland Award for 1947. A Hybrid Tea with beautiful 60 to 70 petaled with delightful true Rose fragrance. Current red blooms. Each \$1.50.

TALLYHO—(Pat. No. 828). The color on the inside of the petals is a varying but always a delightful and unique shade of pink. The outside of the petals is a rich crimson. The buds, before they unfold, are deep Cardinal-Red. Each \$2.00.

SUTTER'S GOLD—(Patent applied for). Beautiful long-pointed, yellow bud, richly shaded with orange and red. Rich tea fragrance not found in any other yellow rose. Each \$2.50.

FORTY-NINER—(Pat. No. 792). Brilliantly hued bi-color that justly secured an A. A. R. S. Award for 1949. Inside of petals is a vivid Orient-Red, while the outside is a Chrome-Yellow, changing to Straw-Yellow. Each \$2.00.

Climbing Roses

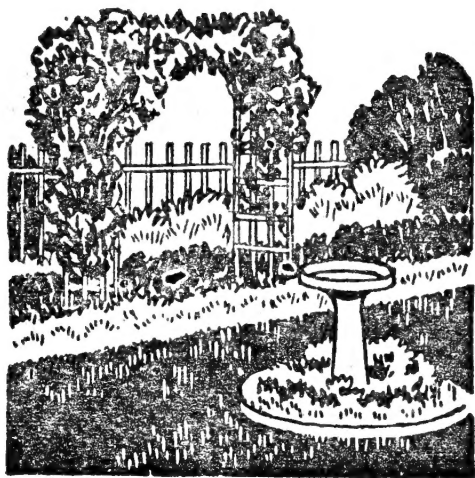

GOLDEN GLOW—(Pat. No. 263). A Brownell Sub-Zero hardy climber. This is a spectrum—yellow, very fragrant. Each \$1.75.

BLAZE—(Pat. No. 10). A hardy, vigorous climbing rose similar to Paul's Scarlet. Re-current bloomer. Scarlet-Crimson flower. Each \$1.50.

NEW DAWN—Everblooming Climbing Rose. Apple blossom pink flowers with Old-Rose fragrance. Each \$1.00.

Hardy Minnesota Mums

HARDY MINNESOTA MUMS—Dr. L. E. Longley, University of Minnesota, has done outstanding work in hardy Mum breeding. We have quite a variety of colors including Aurora, Butterball, Chippewa and others. Potted plants, 45c each, 10 for \$3.50.

Select Variety Of Ornamental Shrubs

SPIREA VAN HOUTTEI—(Bridal Wreath). A very hardy and effective shrub, with graceful arching branches well covered in late May with a profusion of large pure white flower clusters. The most popular and most planted of all shrubs. Will grow in almost any location. Prices: 18-24 inch, 35c each or 3 for \$1.00.

HONEYSUCKLE—(Zabeli). One of the best honeysuckle varieties, producing dark red flowers in May, followed by bright red berries. A vigorous and hardy shrub, growing to a height of 8 to 10 ft., 2 to 3 ft. size., each 75c.

MORDEN'S PINK LYTHRUM—Should perhaps be classed as a perennial. Tall spikes of pink flowers from July until frost. 1 yr. old plants, 50c each; 10 for \$4.00.

BUCKTHORN—(Chadwicki). A new and improved form of Buckthorn. 2-3 ft. Transplanted bushes. Each 50c.

DWARF NINEBARK—(Physocarpus Nana). A very compact low growing bush, 3 to 4 ft. high, bearing clusters of white flowers in spring, followed by red berries. Foliage very attractive. 1 yr. old plants, 50c; 10 for \$3.50.

VIBURNUM LANTANA—Attractive deep green leaves, single white flowers. Bright red fruit changing to black. Also known as Wayfaring Trees. 2-3 ft., well branched, each 75c.

PRUNUS TRILOBA—(Rose Tree of China). A handsome, hardy, vigorous, large shrub or small tree with double pink flowers in April and May. 2-3 ft., each \$1.00.

CARYOPTERIS, Blue Mist, (Hardy Blue Spirea). Low growing shrub covered with numerous clusters of powdery blue, fringed flowers. The foliage is Lanceolate and slightly toothed and silvery green. 12-18 inch bushes, 60c each.

HYDRANGEA—(Both A. G. and P. G.). Well rooted, 2 canes or more. \$1.00 each.

MOCK ORANGE — (Minnesota Snowflake, Pat No. 538). This new Mock Orange is truly outstanding. It has all-double white, fragrant flowers that bloom profusely. Grows to a height of 10 to 12 feet. Thrives in sun or partial shade. A fast grower and very hardy. 2 to 3 ft. size, \$1.50 each.

Climbing Vines

CLEMATIS JACKMANI—No other climbing plant equals in attractiveness the beautiful flowering Clematis. Plant with crown, three inches below surface of soil. Provide good drainage. Broad-petaled flowers of Violet-Purple. The most popular and hardiest of the blue-flowering Clematis. Potted plants. Each \$1.00.

HONEYSUCKLE HECKROTTI—(Summer King). Large, fragrant, flame-red trumpets lined with gold are produced in immense showy clusters; blooming from early summer until frost. The blooms are produced the same year the plant is set out. Foliage, dark blue-green, disease and pest free. Hardy. 2 yr. No. 1 plants, 75c each.

TERMS: Conditions of Sale — All mail orders must be accompanied by cash, check or money order. Prices: net. Boxing and baling extra at cost.

WE DO NOT DIG TREES ON SUNDAY

Orders perviously placed will be dug and may be called for on Sunday.

OUR GUARANTEE—It is mutually agreed between the purchaser and ourselves that any stock failing to start will be replaced at one-half of the regular price, and that the purchaser will not at any time hold us liable for an amount greater than the original price. All stock guaranteed true to name and in healthy condition.
